

Mr. Lindsay M Berger
186 Borebank St.
Winnipeg, Manitoba, Canada R3N 1E3

Highlights of Qualifications:

- Ten years consulting experience using RAD Prototyping methodology
- Nine years of application development experience using PowerBuilder
- Strong object-oriented design and development skills
- Broad database development and data modeling experience with Oracle, Sybase, SQL Server, SQL Anywhere
- Project management experience
- Teaching and mentoring experience

Consulting Experience:

Direct Focus Marketing Communications, February 2005 – present

Project lead for the delivery of a web-based subscriber management system. Served as liaison to subcontracted development company; performed requirements gathering 'on the ground' with the end-client; coordinated development and testing tasks. Business included call centre, operational, financial and marketing components for a New Jersey-based reseller of DIRECTV, Private Cable and Internet services to multi-dwelling unit properties.

Goldstream Wireless Solutions Inc, October 2004 – January 2005

As Vice-President, Technology, wrote technology section of business plan; sourced technology partner for .NET development; led efforts to develop web site and content management system; coordinated requirements gathering sessions.

Great-West Life, September 2004 - October 2004

Developed enhancements to a group benefits management system to incorporate functionality for critical illness benefits. Technologies included Sybase Adaptive Server Anywhere stored procedures, and PowerBuilder.

Canadian Wheat Board, February 2004 - May 2004

Test analyst for a data warehouse project. Designed, coded and executed validation tests. Technologies included Informatica, Oracle, and Sybase.

CanWest Media, February 2003 - December 2003

Integrated a third party newspaper circulation system into Canwest database systems. Analyzed, designed and developed database procedures and scripts to automate interfaces between systems. Technologies included Oracle 8I PL/SQL, HP UNIX shell scripts, Informatica, and Hummingbird BI.

Agricore United, April 2002 - August 2002

Integrated third-party software into Agricore United core systems. Designed and developed processes for creating sales orders and for synchronizing customer, facility, product and pricing information. The project included specifying the technical architecture, such as hardware, operating system software and database software, and included creating and managing the project plan. It also involved coordinating efforts between the vendor, technical support, database administrators and other organizations. The project was completed successfully and on time, as constrained by a merger of the information systems of two major businesses. Technologies included Sybase ASE 12, MS SQL Server 2000, PowerBuilder, PowerDesigner, and Citrix Metaframe.

G. Braha & Associates, July 2002

Prepared a report analyzing PowerBuilder source code and development practices. This was part of a due diligence effort conducted on behalf of an investment fund, which was investigating the financing of a major software company.

Mr. Lindsay M Berger
186 Borebank St.
Winnipeg, Manitoba, Canada R3N 1E3

Manitoba Department of Justice, February 2001 - February 2002

Senior analyst determining data and system requirements to support the Victim's Bill of Rights, with a focus on Prosecutions and Courts information. Developed portions of the Prosecutions Information System. Technologies include PowerBuilder 7, MS SQL Server 7, and ER/Win.

Ontario Ministry of Health and Long Term Care, Sep 2000 - Dec 2000

Senior Analyst/Programmer responsible for the design and construction of an audit system for the Drug Programs Branch. Duties included knowledge transfer and mentoring of other developers. Technologies used include PowerBuilder 6.5 with PFC, Oracle 8, and Rational Rose.

R.D. Friesen Roofing & Renovations, May 2000 - September 2000

Redesigned and built a contact management system for tracking clients, estimates and contracts through all phases of the roofing and renovations process. Technologies used include PowerBuilder 6.5 with PFC, Sybase Adaptive Server Anywhere, PowerDesigner and Novell.

G. Braha & Associates, March 2000 - April 2000

Project manager for the implementation of a new version of a union information system. Coordinated technical issues of all aspects of the transition.

G. Braha & Associates, February 2000

Prepared a report analyzing PowerBuilder source code. This was part of a due diligence effort conducted on behalf of a health information systems company which was purchasing source code from another company.

The Kenna Group (Contact Marketing), March 1999 - November 1999

Performed database synchronization and maintenance; enhanced PowerBuilder data entry applications; maintained data models

Lockheed-Martin Federal Systems, August 1999

Led a joint work session with a group of Lockheed engineers taking over a system developed by a subcontractor. The session consisted of an overview of PowerBuilder in the context of the system, a structured code walkthrough, and debugging and analysis tips.

Relevant Work Experience:

Solutions Delivery Manager, Linnet, July 1998 - February 1999

Responsible for delivering customized GIS integrated product solutions to forestry industry customers. Participated in analysis of customization of GIS integrated agricultural application for a major US sugar beet processor. Performed requirements gathering and analysis; prepared proposals and project plans; designed and developed enhancements to application products.

Consultant, Online Business Systems, 1994 - 1998

Major Project Experience:

National Leasing Group

Designed software architecture for Securitization module enhancements to Lease Management System. Led development team that built the application in PowerBuilder 5 using the PFC and SQL Server. The application also created General Ledger accounting entries.

Medeasy

Programmed enhancements to the Medeasy clinical scheduling program to accommodate program enrollment functionality. Documented and automated data conversion for a Medeasy customer.

Mr. Lindsay M Berger
186 Borebank St.
Winnipeg, Manitoba, Canada R3N 1E3

Northwood Pulp & Timber

Implemented and enhanced the Solid Wood Integrated Sales System, written in PowerBuilder 5 using PFC and Oracle 7. Includes inventory management, order processing and electronic data interchange (EDI) components.

City of St. Paul, MN

Completed development of the licensing module of the License Inspection and Environmental Protection System.

Dept. of Education

Programmed system enhancements for the Student Financial Aid Information System for reconciling bank transaction information.

U.G.G.

Programmer/Analyst responsible for the analysis, design and PowerBuilder development of an inventory management (purchasing, ordering and distribution) project which includes interfaces to other systems, including the country elevator system and accounts payable; developed and programmed system enhancements for the Fertilizer Blending Systems project and Country Elevator system.

City of Winnipeg

Programmer/Analyst responsible for the analysis and design of a PowerBuilder application to automate the operation of the License Branch; Completed and supported a PowerBuilder application to automate the Bicycle Recovery Section; Designed, developed and implemented enhancements on the Animal Services Information System application.

Practicom 2000(OpTx)

Developed and tested portions of a medical application, analyzed interfaces to related pharmaceutical applications.

Programmer/Analyst, Dept. of National Defence, Air Command Headquarters, 1992 - 1994

Designed, developed and implemented systems using PowerBuilder, Oracle and RDB; built reusable modules for a common code library using object oriented features of PowerBuilder, evaluated and selected Client/Server development tools; designed, developed and implemented systems using FoxPro.

Programmer/Analyst, B.A. Robinson Co. Ltd., 1992

Programmer/Analyst responsible for resolving application problems, providing user support and researching third party software solutions.

Education and Certification

- **Sun Microsystems:** Sun certified Java 2 programmer (2000)
- **PowerSoft (Sybase):** Certified PowerBuilder Developer Certificate (1995)
- **Red River Community College:** Computer Analyst/Programmer Diploma (1992)
- **University of Manitoba:** Bachelor of Education (1988)
- **University of Manitoba:** Bachelor of Science (Honours) - Physics (1986)

Courses

- Introduction to Java
- Introduction to UML
- Data Warehouse Data Modelling
- Advanced Object Oriented Concepts
- Project Development Standards
- Building a PowerBuilder Development Framework
- Object Oriented Programming with PowerBuilder
- Intermediate FoxPro Programming
- PowerBuilder Programming
- Object Oriented Programming in C++
